Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The Internet is used by international insurgents, jihadists, and terrorist organizations as a tool for radicalization and recruitment, a method of propaganda distribution, a means of communication, and ground for training. Although there are no known reported incidents of cyberattacks on critical infrastructure as acts of terror, this could potentially become a tactic in the future. There are several methods for countering terrorist and insurgent information operations on the Internet. The federal government has organizations that conduct strategic communications, counterpropaganda, and public diplomacy activities. The National Framework for Strategic Communication guides how interagency components are to integrate their activities. However, these organizations may be stovepiped within agencies, and competing agendas may be at stake. This report does not discuss technical and Internet architecture design solutions. Some may interpret the law to prevent federal agencies from conducting propaganda activities that may potentially reach domestic audiences. Others may wish to dismantle all websites that are seen to have malicious content or to facilitate acts of terror, while some may have a competing interest in keeping a site running and monitoring it for intelligence value. Key issues for Congress: Although the Comprehensive National Cybersecurity Initiative addresses a federal cybersecurity strategy and departmental .
